CAREER SUMMARY

I'm a dedicated and adaptable professional with experience in seafood processing, retail operations, and volunteering. Currently studying a Bachelor of Advanced Computer Science at Curtin University, I bring strong problem-solving skills, teamwork, and a proactive approach to achieving goals while maintaining high standards in every environment I work in.

EDUCATION

Bachelor's degree Curtin University	2024 – 2027
Letter of Commendation – 2025	
- For attaining a weighted average score of above 80	
High School Diploma Willetton Senior High School	2018 – 2023
English, Methods, Chemistry, Human Biology, Physics	
96 Atar	

EXPERIENCE

Seafood Processor KB Seafood Perth	Oct 2024 – Present
- Processed crayfish products to strict food safety and SOP standards while operating specialised machinery in a high-volume production environment. - Managed warehouse operations including palletising, truck unloading, cold storage handling, and outbound dispatch to ensure accurate, on-time delivery. - Used WMS for inventory tracking and order fulfilment, maintaining high accuracy and meeting daily production and shipping targets.	
Seafood Processor Geraldton Fishermen Co-Operative Perth	Oct 2023 – Mar 2024
- Be as precise as possible. Don't write long paragraphs. - Highlight your accomplishments but don't exaggerate; they will ask questions from your resume during the interview. - If you are applying for a position in a new area, emphasize the skills you have established that will be useful in this position.	

PROJECTS

Virtual Health Assistant (VHA)	Feb 2025 – Oct 2025
- Developed a virtual health assistant within a mobile health kit to support Culturally and linguistically diverse (CALD) communities, using Flutter and SQLite - Designed and implemented features for profile management, conversation history, and document-based information retrieval leveraging LangChain, FAISS, and RAG pipelines - Ensured the VHA was culturally respectful, accessible, and secure by integrating user-centered design - Delivered accurate and trustworthy health information by fine-tuning LLM prompts, applying content safety filters, and implementing human-in-the-loop review mechanisms	

VOLUNTEERING
