

PROFESSIONAL SUMMARY

Motivated Bachelor's student in Advanced Computer Science with a strong foundation in software engineering, data structures, and algorithmic problem-solving. Experienced in applying theoretical concepts to practical projects, including developing scalable applications, collaborating in agile team environments, and utilizing modern programming frameworks. Demonstrates a proactive learning mindset, analytical thinking, and a commitment to delivering clean, efficient code. Seeking an internship opportunity to contribute technical skills, gain industry exposure, and further develop expertise in real-world environment.

CORE SKILLS:

- **Team Collaboration:** Work closely with diverse team members in a coordinated production line, demonstrating cooperation, clear communication, and the ability to contribute toward shared operational goals.
- **Time Management:** Consistently meet strict deadlines by maintaining workflow efficiency and managing time effectively in a high-pressure environment.
- **Attention to Detail:** Maintain precision while handling repetitive, quality-sensitive tasks, ensuring adherence to standards. Transferable to debugging and coding accuracy.
- **Adaptability:** Respond effectively to changing production demands, shift adjustments, and workflow variations, demonstrating flexibility relevant to dynamic tech project environments.
- **Process Discipline:** Follow structured operational procedures and safety protocols, reflecting the ability to work within defined systems and technical frameworks.
- **Work Ethic & Consistency:** Maintain performance in physically demanding, fast-paced conditions, showing persistence and commitment to task completion.
- **Problem Awareness:** Quickly identifies workflow issues or quality deviations and reported them promptly, supporting continuous improvement and operational efficiency.

TECHNICAL SKILLS:

- Coding - Python, Java, SQL
- Algorithms - Data Structures, Graph Traversal, Complexity Analysis
- Backend - Flask, REST APIs, SQLite
- AI/ML - NumPy, Pandas, RAG, LangChain, FAISS
- Systems - Operating Systems, Unix/Linux

EDUCATION RECORD

Bachelor' Degree (Hons) | Advanced Computer Science | 2024 – In Progress
Curtin University (Completion in 2027)

- 79 CWA
- Letter of Commendation (2025) for Attaining a weighted average score of above 80

High School Diploma | Willetton Senior High School | 2018 – 2023

- English, Methods, Chemistry, Human Biology, Physics
- 96 Atar

PROJECT EXPERIENCE

Virtual Health Assistant (VHA) | Curtin University | Feb 2025 – Oct 2025

- Developed a virtual health assistant within a health app to support Culturally and linguistically diverse (CALD) communities, using Flutter and SQLite
- Designed and implemented profile management, conversation history, and document-based information retrieval features using LangChain, FAISS, and retrieval-augmented generation (RAG) pipelines
- Applied user-centered design principles to ensure cultural appropriateness, accessibility, and data security
- Improved reliability of health information by refining LLM prompts, applying content safety filters, and incorporating human-in-the-loop review processes.

WORK EXPERIENCE

Seafood Processor | KB Seafood | Oct 2024 – Present

- Processed crayfish products to strict food safety and SOP standards while operating specialised machinery in a high-volume production environment.
- Managed warehouse operations including palletising, truck unloading, cold storage handling, and outbound dispatch to ensure accurate, on-time delivery.
- Used WMS for inventory tracking and order fulfilment, maintaining high accuracy and meeting daily production and shipping targets.

Seafood Processor | Geraldton Fishermen Co-Operative | Oct 2023 – Mar 2024

- Operated specialised processing equipment to prepare crayfish products in a high-volume environment, ensuring full compliance with food safety regulations and standard operating procedures.

Store Helper (Volunteering) | Save the Children - Op Shop | July 2025 – Present

- Assisted customers in-store, processed transactions through POS, and maintained high standards of service
- Supported store operations including stock receiving, pricing, replenishment, and general housekeeping

Helper (Volunteering) | Local Community Events | 2019 – 2021

- Helped with event organization, crowd control, and logistics
- Operated audio systems for effective sound management
- Helped with setup, cleanup, and general event area maintenance

INTEREST & HOBBIES

- | | |
|----------------------|----------------------|
| • Coding | • Learning Languages |
| • Calisthenics & Gym | • Tennis |

LANGUAGE SKILLS

- | | |
|-----------------------------------|-----------------------------|
| • English – Advanced / Native | • French – Basic / Beginner |
| • Urdu /Hindi – Advanced / Native | • Arabic – Basic / Beginner |
